

How to handle cards:

Operations on single card:

Toggle height

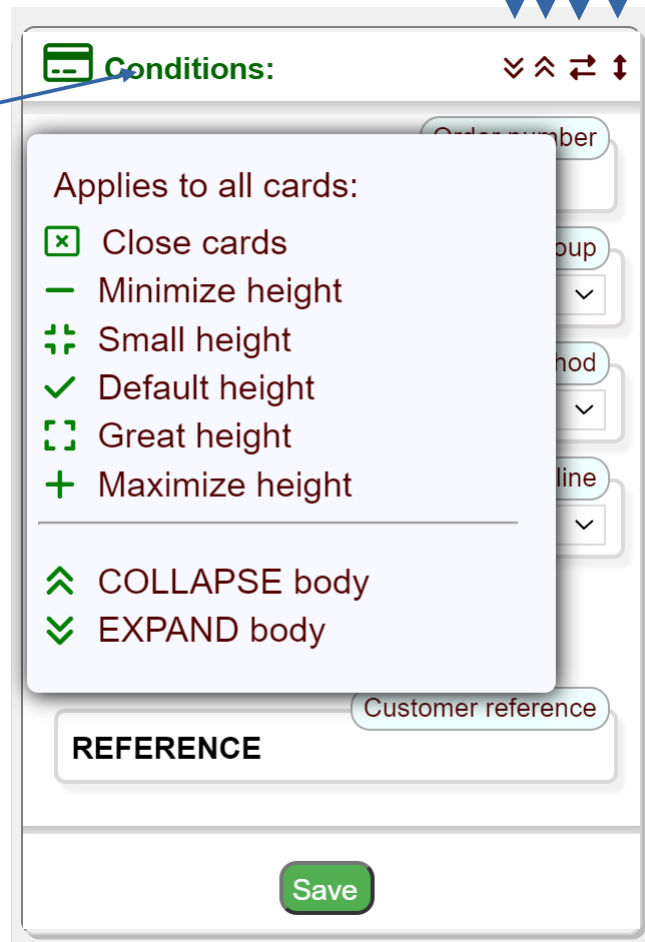

Toggle width

Operations on all cards:

Close all

Open all

Rightclick card-label to show
Context-menu:

How to handle tables:

Sort on columns – Click to toggle sort direction

Filter/seach on columns - Enter criterion

Table-Filtering/Searching: Hold mouse over the colored row below the column headers.

Drag to resize column :

Create a empty row at table-bottom, where you can add data in a new record.

Here you can save the table-content, if you have changed anything.

Customer orders						
Order Date	Deliv. date	Account	Company name	Seller	Amount	Currency
